

STUDY SCHUBERT.

AT THE MEETING OF THE ROCK Island Musical club held yesterday afternoon at the New Harper, Franz Schubert and his works were studied. Mrs. J. K. Scott opened the program with a short sketch of the composer's life and a brief review of his works. Miss Cora Gaejer began the program proper by playing "The Trout," by Schubert-Heller, giving a very good rendition of the pretty composition. Miss Alice Quinlan, substituting for Mrs. William Ullmeyer, with Miss Mae Culter at the piano, sang "For You Alone," by H. E. Geel, and "Charity," by J. M. MacDermitt. Because of the short time in which to prepare for the recital, she did not give Schubert numbers. However, her songs were most pleasingly given. Mrs. Florence Freistat-Lee gave a delightful interpretation of "Ave Maria," by Schubert-Wilhelm, and "The Bee," by Schubert. Miss Effie Johnson was her accompanist. Miss Millie Beck, with Mrs. F. W. Tolmers at the piano, sang sweetly "Faith in Spring" and "I Greet Thee," both by Schubert. Miss Notavene Steck closed the program with "My Sweet Repose," by Schubert, and as usual played beautifully.

The date of the coming of George Hamlin, the great American tenor, was announced for April 9. This recital will be complimentary to club members and the general public will be admitted upon the payment of a small admission fee. Mr. Hamlin is considered one of the foremost tenors before

DON'T PULL OUT THE GRAY HAIRS

A Few Applications of a Simple Remedy Will Bring Back the Natural Color.

"Pull out one gray hair and a dozen will take its place" is an old saying, which is, to a great extent, true. If no steps are taken to stop the cause. When gray hairs appear it is a sign that Nature needs assistance. It is Nature's call for help. Gray hair, dull, lifeless hair, or hair that is falling out, is not necessarily a sign of advancing age, for there are thousands of elderly people with perfect heads of hair without a single streak of gray.

When gray hairs come, or when the hair seems to be lifeless or dead, some preparation of this kind is Wyeth's Sage and Sulphur Hair Remedy, a preparation of domestic sage and sulphur, scientifically compounded with later discovered hair tonics and stimulants, the whole mixture being carefully balanced and tested by experts.

Wyeth's Sage and Sulphur is clean and wholesome and perfectly harmless. It refreshes dry, parched hair, removes dandruff and gradually restores faded or gray hair to its natural color. Don't delay another minute. Start using Wyeth's Sage and Sulphur at once and see what a difference a few days' treatment will make in your hair. This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

MRS. WELLS TELLS OF IMMIGRANTS

In Second of Series of Lectures Speaker Shows Way to Uplift the Foreigner.

BUDDHISM FOREIGN TOPIC Gives Interesting Lesson on Spiritual Growth Before Missionary Social Union.

In the second of the series of lectures under the auspices of the Missionary Social union at Broadway Presbyterian church, yesterday afternoon, Mrs. D. B. Wells took the bible study theme, "Growth Through Correspondence With Elements." She took the growth of a baby as her basis for illustrating spiritual growth and said that to live the baby must have air which in the spiritual growth is faith. The baby must have food—milk which to the Christian is the word of God. She said that one must distinguish between sour and sweet milk and likened the creeds of today to sour milk and unfit for spiritual growth. There must be sunshine that the child may grow, which to the Christian is the practice of the presence of God—there must always be with one His presence and one should breathe prayer as one breathes air. Exercise is the last of the elements. A child tied in its chair will not grow, so the Christian cannot grow if tied to his pew—he must be up and doing and put into practice the things that are taught in the church.

BUDDHISM FOREIGN TOPIC.

Buddhism was taken by Mrs. Wells for the foreign topic to be studied, and she said that this creed is just a step higher than Hinduism which was studied the day before. It had its origin about 1,600 years before Christ and claims the largest number of adherents of any known faith. She said it was similar only to Christianity in ceremony and "millinery," meaning form of service and manner of clothing of priests. She said that its rise was due to a protest against Hinduism, a protest against the divorcing of religion and morality as in Hinduism. It was founded by Buddha and was an effort to put down caste. The founders objected to the degraded state of women as practiced by Hinduism. They claimed that they were bound down by creed and sought a means of rising from this bondage. Buddhism means complete annihilation of self. The way to seek complete happiness is to kill all desire for from desire comes all sorrow, and in the end nonexistence. It is diametrically opposite to Christianity in that Christianity teaches that there is life in the hereafter—Buddhism teaches there is no God.

WHAT TO DO FOR IMMIGRANT.

The home mission topic was "What to Do for the Immigrant," and Mrs. Wells gave a most interesting talk on this subject. She said that 200,000 missionaries go to Europe every year who are not sent as missionaries, and who prejudice the foreign countries against this nation. She spoke of America as the pattern of the world and said that the people of this nation must put before the immigrant better ideals, that they must be Christianized. She said that we cannot put the immigrant in the ditch and sit on him without staying there ourselves, therefore they must be lifted

GEORGIA MISS WINS FAME AS SCULPTRESS: HER WORKS OF ART ARE DONE IN BUTTER

Miss Lucy Emerson, of Quitman, Ga., standing beside her recumbent group, a cow and her calf modeled in butter, was the wonder of all visitors at the recent Brocks County fair at Quitman. The judges unanimously agreed that the exhibit should have been in the art class.

Miss Emerson was churning on her father's farm when a neighbor suggested that she take her butter to the fair.

Taking it from the churn, she worked the water out of it, and within thirty minutes had modeled this expressive group. All her life Miss Emerson has been modeling, and all the butter that goes upon her father's table is a work of art.

up. She spoke of the cause for uncleanness of the immigrant and she said that upon investigation she found in Chicago there were in four blocks 40,000 foreigners and but eight bath-tubs and only four places on Lake Michigan where there were bathing facilities. It costs to keep clean under such conditions. She said that the people of this country could get good things as well as bad from the immigrant. Impudence is seldom found among the Greeks, which can not be said of the American. Art and music have their fountain in Italy. The immigrant can be a great asset if he is educated. This, she said, was mostly a back door problem where an opportunity is given each woman to uplift and set before the immigrant the right pattern. She told a great many stories to illustrate her points and at no time does her audience lack interest.

The topic for tomorrow afternoon's study is "Growth Through Correspondence With Actuals." The foreign study will deal with Mohammedanism and the home topic with "The Social Service of the Church."

Tortured for 15 Years

by a cure-defying stomach trouble that baffled doctors and resisted all remedies he tried, John W. Modders of Moddersville, Mich., seemed doomed. He had to sell his farm and give up work. His neighbors said "he can't live much longer." "What- ever I ate distressed me," he wrote, "until I tried Electric Bitters, which worked such wonders for me that I can now eat things I could not take for years. It's surely a grand remedy for stomach trouble." Just as good for the liver and kidneys. Every bottle guaranteed. Only 50 cents at all druggists.

A Quick Way to Clean Windows

With a dry, soft cloth remove the dust from both outside and inside, cleaning the corners and grooves with the point of a stick covered with a cloth. Have ready a pail of warm suds made by dissolving a tablespoon of Gold Dust washing powder in warm water. Dip a soft cloth in the water, squeeze almost dry and wipe the glass. Polish with chamois, as it leaves no lint and does the work with more ease. Do not wash windows when the sun is shining on them. Mirrors should be washed in the same way as windows. Then polish with a soft cloth charged with powdered whiting.

OVERHEATED STOVE IS CAUSE OF A FIRE

An overheated kitchen stove in the residence of Moses Levi, 714 Twenty-seventh street, set fire to the wood work this morning about 6 o'clock. Mr. Levi built the fire and then went outdoors to feed the horses and on returning to the house found the kitchen a mass of flames. An alarm was turned in, but when the department attempted to run a line of hose from the plug at Twenty-seventh street and Seventh avenue, it was found that the hydrant was frozen. Chemicals were used to keep the flames in check until another line could be run from the plug at Eighth avenue between Twenty-sixth and Twenty-seventh streets. The damage amounted to about \$400.

Mildred Bridges Set Free.

Chicago, Feb. 14.—Mildred Bridges, former disciple of Evelyn Arthur See and devotee of his "absolute life" cult, was discharged yesterday in the juvenile court. The entire hearing before Judge Pomeroy was over in five minutes.

As soon as the case was called the judge asked: "Are you attending school now?" "Not now," replied Mildred, "but I have been. I am through with the 'absolute life'."

"I do not see there is any evidence to hold against you. You are discharged."

When asked about her future plans Miss Bridges said: "I don't know. I may go back to school, however. I am through with the past. That ended today."

Assistant Chief Probation Officer Joseph Moss escorted the girl out of the room and bade her farewell. She returned to the residence of Mrs. Charles Klingens, 4333 West Van Buren street, who accompanied her to court. According to Henry Lynch, chief probation officer, Mildred was released because she recently has become of age and there was but little evidence as to her delinquency.

Kidnap Story Called False.

Chicago, Feb. 14.—Antonio Magiore, Jr., 13 years old, who disappeared from his home and upon returning told of having been kidnapped by a man who carried a box filled with dynamite, was restored to the custody of his parents by Judge Pomeroy in the juvenile court yesterday. The death of the lad's brother, Michael Magiore, suspected of having been poisoned, is still under investigation. Detective Gabel testified the police were satisfied the boy's story was untrue and was concocted to escape punishment by his parents. The boy on the witness stand yesterday related the same story he had told the police, asserting the "stranger with the box of dynamite" took him to St. Paul and then released him. He said he "beat" his way home on freight trains.
